

Dr Sanja Sakan

Naučni saradnik

Profesionalno iskustvo Oblasti interesovanja Projekti Izabrane publikacije

Adresa: IHTM-Centar za hemiju, Studentski trg 14-16, III sprat, soba 630
11158 Beograd 118, PAK 105104, Srbija

Telefon: + 381 11 3336 801

Faks: + 381 11 2636 061

Elektronska pošta: ssakan@chem.bg.ac.rs

Obrazovanje: 2010 Dr hemijskih nauka, Hemijski fakultet, Univerzitet u Beogradu

Zvanje: 2011 Naučni saradnik

Članstva u društvima: Član Srpskog hemijskog društva

Profesionalno iskustvo: 2001 IHTM – Centar za hemiju

Nagrade i priznanja: 2001 2nd prize "YOUNG SCIENTIST AWARDS OF B.EN.A.", from Alexander von Humboldt in Edirne, Turkey

Oblasti interesovanja: Problematika hemije životne sredine, prvenstveno problemi vezani za zagađivanja voda, sedimenta i zemljišta teškim metalima, kroz proučavanje njihove mobilnosti, biodostupnosti, procenu antropogenog udela, procenu rizika od zagađenja i mogućih toksikoloških efekata ovih elemenata na živi svet.
Primena različitih statističkih metoda u analiziranju velikih baza podataka.

Citiranost: 219 (173 bez autocitata) , h-indeks = 7, Baza SCOPUS, januar 2016

Znanje jezika: Engleski, ruski

Najznačajniji projekti: Međunarodni:

2007–2008 "Continuous water quality monitoring in surface waters at Montenegro and Serbia", SEE–ERA NET Pilot Joint Call Research Project, Contact number: 401-00-282/2007-01-7
2015– COST akcija ES1306: "Connecting European Connectivity Research"

Osnovna istraživanja:

2002–2005 "Hemodinamika zagađujućih supstanci u vodenim resursima (površinske i podzemne vode i sedimenti)" br. 1727

2006–2010 "Geohemijska ispitivanja u funkciji pronalaženja novih ležišta fosilnih goriva i zaštite životne sredine" br. 146008

2011– "Proučavanje fizičkohemijskih i biohemskihs procesa u životnoj sredini koji utiču na zagađenje i istraživanje mogućnosti za minimiziranje posledica", br. 172001

Integrисана i interdisciplinarna istraživanja:

2011– "Istraživanje klimatskih promena i njihovih uticaja na životnu sredinu: praćenje uticaja, adaptacija i ublažavanje", br. 43007

Izabrane publikacije: Poglavlja u knjigama:

1. Sakan, S., Sakan, N., Đorđević, D. (2015). Pollution characteristics and potential ecological risk assessment of heavy metals in river sediments based on calculation of pollution indices, in Advances in Environmental Research, 63-84, Nova Science Publishers, New York, ISBN: 978-1-63482-885-7
2. Sakan, S., Sakan, N., Đorđević, D. (2015). Evaluation of the possibility of using normalization with cobalt in detection of anthropogenic heavy metals in sediments, in Advances in Chemistry Research, 167-183, Nova Science Publishers, New York, ISBN: 978-1-63463-630-8
3. Sakan, S and Đorđević, D. (2012). Distinguishing between natural and anthropogenic sources of trace elements in the sediments using the methods of geochemical normalization and statistical analysis, in Trace Elements: Environmental Sources, Geochemistry and Human Health, Nova Science Publishers, New York, ISBN: 978-1-62981-401-7
4. Sakan, S and Đorđević, D. (2012). Assessment of trace element contamination in the river and alluvial sediments using a sequential extraction technique and statistical analysis, in Metal Contamination: Sources, Detection and Environmental Impact, 119-156, Nova Science Publishers, New York, ISBN: 978-1-61942-116-5
